BACKGROUND

A RPQ was previously issued August 7, 2014 for the subject project through the Miscellaneous (MCC) 7040 Program under Project No. 20140126. However, no bids were received by the bid opening deadline of September 10, 2014. As such, the project is being re-advertised through the MCC 7360 Program to expand the bidder's list.

The subject project will provide enhanced drainage improvements within multiple locations. These improvements are necessary in order to maintain safe conditions during and after rain storms. A detailed scope of work can be found in the project information sheet.
