### **Company History**

Aarya Construction and Design was established in 1990, with the objective of delivering high quality, competitive priced construction services to clients.

In the span of 23 years we have been successful in meeting that objective and establishing a reputation for craftsmanship, on-time performance, and completion within budget.

Aarya Construction and Design is experienced in all aspects of construction including commercial, and industrial.

We have provided superior construction services on a wide variety of government projects including Miami International Airport, Miami Seaport, Miami Dade Water and Sewer Department, Miami Dade Public Works, Miami Dade Parks and Recreation, Army and US Coast Guard, Florida International University, Miami Dade community colleges, Miami Dade Housing and other public and private housing projects including churches.

Our construction industry experience, quality over quantity mind set, strong client focus and action-oriented attitude make us the contractor-of-choice.

AARYA's restrict accident prevention policy in house and with our selected Sub-contractors who perform the job made us able to stay Claim Free through all these years.

Our "Doing Clean" job policy provided us medium in size but superior performance for several Governmental contracts resulting in "Zero Claim" not only on our Worker's comp policy but no claims whatsoever on our General Liability with State Farm (a 19 years old policy) or Bond policies with Travelers Casualty.
