Re: Project No. RPQ P0145
One Year Countywide Contract for Rehabilitation of Sanitary Sewer by Cured-In-Place Pipe
Lining Method for PSIP Projects.

Dear Sir or Madam:

The above-referenced contract is being considered for small business contract measures. If you are interested in participating as a CSBE to perform work in connection with this project and meet the requirements listed in this letter, please complete and return the attached Verification of Availability to bid **by Tuesday, May 20, 2014, at 1:00 P.M.** **It is asked that all pages are returned completed in its entirety. Failure to complete will result in this Verification of Availability to Bid Letter not being considered.**

Please review the enclosed description of the project.

The letter of availability may be sent **via facsimile transmission to (305) 375-3160 or via email to coralee@miamidade.gov.** If you have any questions, please contact me at (305) 375-3115.

Sincerely,

Coralee Taylor, Contract Development Specialist 2
Internal Services Department

VERIFICATION OF AVAILABILITY TO BID

PROJECT TITLE: One Year Countywide Contract for Rehabilitation of Sanitary Sewer by Cured-In-Place Pipe Lining Method for PSIP Projects.

PROJECT NUMBER: RPQ P0145

PROJECT DESCRIPTION

The Project consists of furnishing all labor, materials and equipment for rehabilitating defects in 8 through 27-inch diameter gravity sanitary sewer pipes by the cured-in-place pipe lining method, at various and different locations anywhere within the limits of Miami-Dade County, Florida, as ordered by the Department during a one-year period. The Department is currently responsible for maintaining the gravity sanitary sewers in Miami-Dade County, Florida. It is the intention of the Department to establish a "blanket" type contract with one (1) successful bidder, for a one-year period, to clean and line gravity sanitary sewer pipelines.

This work includes supplementary cleaning of the affected existing gravity sanitary sewers, isolating the reach of sewer to be repaired, inspecting it with closed circuit television (CCTV), and then installing a cured-in-place pipe liner and re-inspecting the repaired reach with CCTV. Repairs in non-industrial areas will utilize a polyester resin system. The work in the sewer shall be accomplished through the manholes, without disturbing the street surface or adjacent property or any utility, except when performing excavated point repairs of sewers.

Work also includes bypass pumping of sewage or plugging and monitoring, if needed, and other appurtenant and miscellaneous related items and work for a completed Project. The terms "work," "lining," "construction," "repair" and "cleaning" shall each be construed to denote any and all activities under this contract, regardless of its nature.

The successful bidder shall submit a schedule of their proposed work, as bid, including information on the experience of the firm, the personnel assigned to the repair work, and especially the experience of the crew leaders who will actually run the work in the field, as well as information on all equipment and the type of process that will be used for lining (see questionnaire in the Quotation). **The Contractor must certify that he has a minimum of two (2) installation crews and equipment in order to complete the work in a timely fashion.** The contract will not be awarded and no work shall commence until these submittals have been approved and the successful bidder has received a written Notice to Proceed, respectively.

The Department reserves the right to reject individual crew leaders due to either inadequate experience, or unsatisfactory or poor performance on the job (in the Department's or the Engineer's opinion). Along with his bid, **the Contractor must submit proof that his/her firm has been regularly and successfully engaged in the commercial installation of the liner product for a minimum of one (1) year, and has successfully performed an aggregate amount of at least 100,000 linear feet of sanitary sewer repairs of pipes 8 through 27 inches in diameter in subaqueous conditions.**

PROJECT CRITERIA:

Proposers must be: Underground Utility and Excavation, Pipelines Engineering, or General Engineering Contractors

Contractor Qualifications Questionnaire

(Please Return this Page)

This questionnaire will assist SBD in identifying the qualified contractors that “comply” to perform the aforementioned scope of work. Indicate yes “Y” or no “N” on the empty line on the left side of this questionnaire and forward it completely filled out to this e-mail address: coralee@miamidade.gov or via fax (305) 375-3160 attention Mrs. Coralee Taylor.

_____ Proposer has the experience as listed in the Project Description and Proposer’s firm has been regularly and successfully engaged in the commercial installation of the liner product for a minimum of one (1) year, and has successfully performed an aggregate amount of at least 100,000 linear feet of sanitary sewer repairs of pipes 8 through 27 inches in diameter in subaqueous conditions.

_____ Proposer is: Underground Utility and Excavation, Pipelines Engineering, or General Engineering Contractor

Commercial Installation of liner products for one a minimum of one (1) year. List Similar Projects Completed. (Name of Project and Owner)	Project Completion Date	Contract Amount	Project Contact Person & Telephone for Verification

I certify that to the best of my knowledge all the information provided is verifiable and correct.
