MIAMI-DADE COUNTY

INTERNAL SERVICES DEPARTMENT
PROCUREMENT MANAGEMENT SERVICES

Justification/Input Document for Non-CompetitiveAcquisition

It is the policy of Miami-Dade County to consistently purchase goods and services using full and open competition. The citizens of Miami-Dade County are best served when we make sound business decisions based on competitive bids or proposals. Early acquisition planning that includes consultation with Internal Service Department's procurement staff can help avoid delays and facilitates effective market research. However, there may be instances when other than full and open competition may be justified. When a user department(s) determines that other than full and open competition is necessary or in the best interest of the County, appropriate justification for that course of action must be submitted to ISD for approval and execution in order to waive the competitive bid/proposal process.

Please provide the information requested below to support the need and feasibility for waiving the competitive bid/proposal process:

Department:	Medical Examiner		
Contact Person:	Aylin Concepcion	Phone Number:	305.547.5721
Requisition No.:		Estimated Value:	$120,000 per year
Proposed Vendor:	University of Miami Tissue Bank (FEIN: 590624458 / 64)		
Previous Contract Number:	BW9156-0/14	Previous Contract Value:	$312,666.67 (for a 3 year term)

Purpose of the Purchase
Please describe your minimum requirements and the benefits of making the acquisition.

The Medical Examiner Department (ME) is requesting to establish a replacement contract with the University of Miami (UM) in order to ensure continuity of services once the current contract (BW9156-0/14) expires. UM provides histopathology services and tissue analysis, testing and processing including preparation, staining and labeling of microscopic slides for the ME. The department requires the services of histopathology technologists in evaluating the evidentiary human tissue collected during the autopsy process as a part of the death investigation procedure specified in State of Florida Statute 406.

Best Interest of the County / Uniqueness of Product
Please provide a detailed description as to why a waiver of formal bidding is in the County's best interest (e.g., product standardization, compatibility, proprietary access or distributorship, how vendor is uniquely qualified to provide the needed product or service, etc.). Please note that a lack of advance planning is not an acceptable justification for a non-competitive acquisition.

The ME signed a lease agreement in the amount of $1 per year with UM to cover the leasing of the Joseph H. Davis Center for Forensic Pathology located at One Bob Hope Road, Suites 212, 213, 214, and 215. Originally, this lease agreement was approved by the Board on February 16, 1988 under Resolution No. R-171-88 and commenced on February 8, 1988 and expired on February 7, 1993. The term of the lease was for five years, with one option-to-renew for another five years. On February 3, 1998, the Board approved under Resolution No. R-110-98 an amendment to extend lease agreement for another five years and added one additional five year

option-to-renew which commenced on February 8, 1998 and expired on February 7, 2003. On April 8, 2008, the Board approved under Resolution No. R-333-08 a new lease agreement. The term of the lease is for five years, with two additional five year options-to-renew. (lease agreement attached).

If the County were to provide these services an initial investment in excess of $1 .5 million would need to be incurred provided under this agreement, to establish and equip an in-house facility, and operational cost for these services would exceed current cost. Additionally, If the County were to manage these services, it would require a full time staff position representing an additional expenditure.

Tissue sample receipt, inventory, requisition, packaging, glass slide receipt and distribution, paraffin tissue block storage and archiving are services currently included at no additional cost to the County. In addition to the histopathology services, ME's pathologists have free access to UM pathologists for consultation on any histopathology issues for findings. Consultations typically cost $400 per case or more.

Market Research
Please describe your market research and the results thereof. This should include a description of other, similar sources or products available in the market if any and why they are not acceptable.

The University of Miami has been providing these services to ME for over 30 years at no additional cost to the County. It is in the County's best interest to continue this relationship as it would result in significant savings to the County. The histopathology procedures developed by the collaboration meets the highest standards that could be expected and the pathology staff has high confidence in the results. Market research for the service was not necessary.

Proposed Actions
Please describe the actions the department will take to overcome the present barriers to competition prior to any future acquisitions of this product or service.

There are no proposed actions at this time. The continuation of the University service best meets the needs of the Department and the County. If it becomes necessary in the future, because of change in University services, to seek another vendor the Department will evaluate all possible avenues to obtain quality histology services.
