Florida! the Big Ideas

- Exhibit and interpret the unique animals, habitats, plants, and culture of South Florida and the Everglades in fun, interactive and unique ways
- Immerse visitors in an environment that makes them feel like, “I’m there”
- View animals “up-close and personal”
- Visitor interaction with the animals=animal interaction with the visitor; creating a dynamic and enriching environment for both
- Visitor experience is active rather than passive
- Physical boundaries between the visitor and the animal are blurred
- Create an atmosphere where entertainment and education go hand-in-hand
